

THE DREAM OF EDUCATION

The project for #GivingTuesday

We are a small non profit, U.S. 501(c)(3), blessed to do big things in Eastern Europe giving a leg up to poverty stricken children. In 2000, we began as volunteers answering the call to educate Romanian parents in better ways to parent. By 2009, we had grown to be a U.S. non profit with a group of volunteers serving several E. European countries.

I, Anne Boyd, CEO, am a volunteer for God's Children. Our Board of Directors are all volunteers. It is our joy to bring hope and healing to children, making it possible for them one day to bring hope and healing to children around them.

~ Anne Boyd, CEO, God's Children.

For these children, education is a gift that can't be overstated. Seeing the dream of education becoming a reality for many of them is absolutely overwhelming. It gives them hope for the future.

Together we can have a greater impact in joining this movement. In order for the scholarship program to go on, we are hoping to raise \$25,000.

Our goal is to help:

4 village students to get university Bachelor's degree which takes 3 years.

For 1 student the following amount is needed:

\$ 675 = tuition for one school year.

\$1,350 = 9 months room, food, books

\$6075 is needed for one student to get university degree.

We know this is a challenge, but God can make great things. We trust that the students we will help will make a difference in the future. Their life will be changed so they can change other lives too. Say YES to a better life!

For these children, education is a gift that can't be overstated. Seeing the dream of education becoming a reality for many of them is absolutely overwhelming. It gives them hope for the future.
